Dear Sisters,

I am writing this letter at a very sad time. I am sure you would have heard of the tragedy in our school at Carmel Convent, Chandigarh. A huge tree fell, and a student lost her life. Many others were injured and an attendant is still on ventilator.

Let us pray very specially for the deceased and her family for strength and comfort and pray for the speedy recovery of the injured students. Let us also pray for our sisters who are going through a very difficult time right now.

I would request all Heads of Institutions to please audit the safety measures in the buildings as well as the entire campus including checking all old trees periodically and take necessary steps for the safety of the minor children. Accidents can happen but there is no room for negligence.

Kindly send the report to the Councilor for education of your province that safety is ensured in all your places and that you have carried out this audit. Let us at all times take care of the children in our institutions.
