

REACHING OUT IN THE COVID CRISIS

The whole world, particularly our country India is groaning under the heavy weight of this pandemic COVID 19. Once again our hearts moved towards our suffering brothers and sisters. So we decided to put our trust in the Lord and with prudence and care venture out to reach out to them. We are now serving in the COVID safe home, caring for the patients who are just released from the hospitals but not yet completed the quarantine period. Here they are given proper care, attention, good food and round the clock nursing care.

Our diocese and Caritas India has joined hands together with us in this venture.

We are extremely grateful to God for using us to serve his people.
